GitHub - Version 5.0.13

Last Modified on 11/25/2022 4:12 am EST

Released for GITHUB on Nov 2, 2020

From now on, you can sync up to 1000 issues per month with the Evaluation license. Also, we made a lot of performance improvements, bug fixes, and interface updates.

In this release

Improvements

GITHUBNODE-176	You can now sync up to 1000 issues per month with the Evaluation license
GITHUBNODE-164	Made OAuth the main login type
EXACOMP-850	Improved performance of Clean-up tools
JCLOUD-1484	Improved triggers performance
EXACOMP-842	Connections list in Clean-up tools now loads faster
EXACOMP-802	Improved text field sync in description between Azure DevOps and Jira
SNOWNODE-230	Improved sync performance by only polling entities that are already synced
ADNODE-230	Improved app security
EXACOMP-785	Added possibility to resolve all errors in a specific connection
EXACOMP-776	Improved app performance
ZENDESK-234	Updated the retry mechanism to reduce the amount of sync errors
EXAEDIT-910	Improved field options search when adding field mapping
EXACOMP-734	Added identification of nodes for license enforcement
JCLOUD-1429	Added possibility to create triggers with empty queries
ZENDESK-165	From now on, Exalate can sync Requester and Assignee fields from Zendesk
EXACOMP-670	Added email notifications when a license limit is nearing it's end

Bug fixes

GITHUBNODE-179	Fixed bug with triggers sometimes not created
EASE-6363	Fixed bug with issues not syncing when adding a description
EASE-6246	Fixed bug with sync crashing when editing comments in Jira Server

EXACOMP-862Fixed bug with issue attachments not synced in private to public connectionsEXAEDIT-1081Fixed Copy invitation code alignment in SafariEXACOMP-5711Fixed bug with Work item field higlighted as an error when doing a Clean-up is and bug with data, attachments, and comments not syncing in Bulk connectEXACOMP-7152Fixed bug with data, attachments, and comments not syncing in Bulk connection errorsEXACOMP-8383Fixed problem with blank page showing up in Connection section during connection errorsEXACOMP-8404Fixed bug where Exalate was shown as uninstalled if you input the incorrect destination instance URLEXACOMP-7310Fixed bug with Epic name not syncing properlyJCLOUD-14407Fixed bug with some comments always shown as updatedEXACOMP-732Fixed bug with an error message appearing when accessing the login screen viewedEXACOMP-7577Fixed bug with instance crashing when a connection is deletedEXACOMP-7578Fixed problem with instance crashing when connection swere deletedEXACOMP-7530Fixed problem with instance crashing when connection swere deletedEXACOMP-7331Fixed bug with large JQL queries being cut off in the trigger deletion pop-upEXACOMP-645Fixed bug with mapping error being displayed as a "missing description" errorEXACOMP-7332Fixed bug when other tabs except License Details weren't accessible with the Network licenseLOUD-14208Fixed pug when filter by connection was not saved after pressing Refresh in the Errors tabLOUD-14204Fixed pug when then Delete connection button was not responsive for slow connections

	EXACOMP-726	Fixed problem with loading a support .zip file when syncing a lot of issues
ZENDESK-235 Fixed issue when syncing comments between Zendesk and Jira Cloud	ZENDESK-235	Fixed issue when syncing comments between Zendesk and Jira Cloud

ZENDESK-231	Fixed bug with error messages displaying the email of the remote instance
EXACOMP-721	Fixed attachment handling when adding attachment during sync

UI updates

•	
EXACOMP-798	Added placeholders to If clauses in triggers and Destination Instance field
EXACOMP-625	Updated UI in the Accept invitation screen
JIRANODE-3092	Visual mode is now unavailable for private connections
SNOWNODE-224	Entity type is now required when adding triggers
EXACOMP-731	Added link to Generate invitation for pending connections
EXACOMP-775	Updated the look of 30-day trial button
EXACOMP-817	Updated the Subscribe to Exalate section
EXACOMP-800	Added hints on how to work with errors
EXACOMP-801	Updated the buttons when selecting visual or scripting modes
EXACOMP-820	Updated error message when you input the incorrect destination instance url
EXACOMP-784	Updated behavior of Publish button for slower internet connection
EXACOMP-682	Updated the look of the Subscribe to Exalate screen
EXACOMP-809	Changed style of script editors
EXACOMP-708	Added text and video tips for Initiate connection, Accept invitation buttons, and Pending status
EXACOMP-781	Updated fonts in the Add trigger window
EXACOMP-773	Publish button is now named Publish and resolve if there are errors with connection
EXAEDIT-1005	Fixed text inconsistency in the entity filters when creating a connection
EXACOMP-655	Triggers can be created only after creating a connection
EXACOMP-705	Added Go to remote button after copying the invitation code
EXAEDIT-991	Updated text in Delete Trigger, Bulk Exalate, Bulk Unexalate, and other confirmation screens
EXACOMP-638	Fixed formatting of windows with action buttons
EXACOMP-644	Fixed formatting of pages in the bottom of the Connections tab
EXAEDIT-832	Now you can access our license agreement from the Getting Started tab

EXAEDIT-1015	Added a JQL reference in the Connection and Trigger tabs
EXACOMP-731	Added a link to generate invitation on Pending status
JIRANODE-3032	Updated information in the Support tab
JIRANODE-2779	Added a progress indicator that a clean-up has started
EXACOMP-728	Added loading animation for processes that take time, such as bulk Exalate, or bulk Unexalate
EXACOMP-724	Action icons for connections are always visible instead of on hover
EXACOMP-704	Added Configure Sync button to set up sync scope after creating a connection with a script
EXACOMP-758	Added possibility to close pop-up windows by clicking outside of the window
