

Known Issue: Exalate isn't Displaying Correctly in IE 11

Last Modified on 11/17/2022 2:38 am EST

Problem

Exalate configuration is not displaying correctly in Internet Explorer 11.

Cause

This is a known issue. The Exalate App is not supporting IE 11.

According to [GlobalStats](#), Internet Explorer is the least used browser. Therefore, we've decided to stop supporting this browser.

Solution

Please use different browsers, such as Firefox, Safari, or Chrome.
