

Azure DevOps - Version 5.1.0

Last Modified on 11/25/2022 4:17 am EST

Released for AZURE DEVOPS on Dec 29, 2020

Starting from version 5.1.0, you can set up public connections in Visual mode, without using scripts. It is possible only if you have admin access to both instances. Check out [Set up a Visual connection in Exalate for Azure DevOps](#) for more information. We also made a bunch of bug fixes and improved the Subscribe to Exalate screen.

In this release

Bug fixes

EXAEDIT-1185	Fixed bug where it was impossible to create a visual mode connection between Azure DevOps and Jira Cloud
ADNODE-284	Fixed bug where session was expired after verifying admin access in Visual mode or clicking Go to remote in Script mode
ADNODE-287	Fixed bug with verification failing in Visual mode connections
EXAEDIT-1186	Fixed bug with license limitation showing incorrectly in Bulk Exalate
EXAEDIT-1180	Fixed bug where automatic and manual sync wasn't working in Visual mode connections if there were multiple conditions

UI updates

EXACOMP-682	Updated the look of Subscribe to Exalate screen
