

ServiceNow - Version 5.0.28

Last Modified on 11/25/2022 4:39 am EST

Released for SERVICENOW on Dec 16, 2020

In this release, we added a possibility to sync any ServiceNow entity. Also, you will now receive a verification link when registering an Exalate instance. This makes it easier to get an evaluation license, create an Exalate admin account, and also improves security. Moreover, we made some bug fixes, and improved our user interface

In this release

Improvements

SNOWNODE-261	From now on, you can sync any ServiceNow entity with Exalate. Check out this article for more information: How to sync any entity in Exalate for ServiceNow
SNOWNODE-259	We updated the process of registering an Exalate instance. From now on, you will receive a verification link to your email. This simplifies the process of creating an Exalate admin account and improves security

Bug fixes
