

# Jira Cloud - Version 4.1.2-AC (internal: 5.0.52)

Last Modified on 11/03/2022 12:20 pm EDT

Released for JIRA CLOUD on Aug 31, 2020

We raised the amount of syncs for the trial license. Also, we made various UI improvements and bug fixes.

## In this release

- EXACOMP-721 – Fixed issue when adding an attachment to an issue that is already in sync
  - EXACOMP-724 – Action icons for connections are always visible instead of on hover
  - JIRANODE-2779 – Added loading animation after starting a sync clean-up
  - EXACOMP-726 – Fixed bug with large instances going down after generating a support .zip file
  - EXACOMP-727 – Fixed error when menus not being available after entering a license
  - EXACOMP-728 – Added loading animation for processes that take time, such as bulk Exalate, or bulk Unexalate
  - EXACOMP-645 – Fixed problem when sync errors for a specific connection were not shown after refreshing the page
  - EXACOMP-731 – Added link to the Generate invitation option after a connection is pending
  - EXAEDIT-1015 – Added link to the documentation from the Trigger creation menu
  - JCLOUD-1420 – Fixed bug with missing description errors being recognized as mapping errors
  - EXAEDIT-991 – Updated UI for various confirmation messages when deleting triggers, bulk Exalate, bulk Unexalate, and others
  - JCLOUD-1428 – Fixed issue when syncing comments between Zendesk and Jira Cloud
  - EXACOMP-733 – Fixed problem when you were redirected to the license screen when connecting with a network license
  - EXACOMP-723 – Fixed UI for the Go to remote button when creating a local connection
  - JCLOUD-1430 – Updated the error message when a non-existing customfield is synced
  - JCLOUD-1440 – You can now sync up to 1000 licenses in the trial version
-
