# Jira Cloud - Version 4.1.2-AC (internal: 5.0.59)

**Released for** JIRA CLOUD on **Nov 16, 2020**

In this release, we introduced new admin verification in Visual mode connections. From now on, it uses OAuth, which improves security. Moreover, you can now sync data between different Exalate versions, starting from 5.0.0. We also made a bunch of UI updates and bug fixes.

# In this release

## Improvements

| | |
|---|---|
| JCLOUD-1451 | From now on, admin verification in Visual mode uses OAuth. This improves app security. Also, if you complete admin verification once, you won't need to complete it again |
| EXAEDIT-873 | You can now create Visual mode connections between any Exalate version that supports Visual mode. This works for all versions after 5.0.0 |
| EXAEDIT-998 | Added possibility to configure scope matching in the remote instance |
| SNOWNODE-250 | Items in the Entity type dropdown load faster |
| JCLOUD-1491 | Improved triggers performance |
| JCLOUD-1496 | Sync is now faster because delete events consume less resources |
| EXACOMP-877 | Improved trigger synchronization for Incoming sync scripts |

## Bug fixes

| | |
|---|---|
| JCLOUD-1401 | Fixed bug with error having confusing formatting |
| EXACOMP-901 | Fixed bug when instance could crash after generating a support.zip file |
| EXACOMP-897 | Fixed bug with deactivating connections being added to sync queue |
| EXACOMP-885 | Fixed issue with attachments not syncing between private and public instances |
| EASE-6601 | Fixed bug with comments being deleted during sync between Jira Cloud and Zendesk |

| EXACOMP-854 | Fixed bug with Errors page being shown in the Entity sync status page |
|---|---|

## UI updates

| | |
|---|---|
| EXAEDIT-1091 | Added information about entities accessible to users in Visual mode connections |
| EXAEDIT-1075 | Added a Revoke remote access button for Visual mode connections. It removes connection access from the remote user |
| EXAEDIT-952 | Added a notification on how to proceed if your Exalate versions are not compatible |
| EXAEDIT-238 | Updated Details section in the Outgoing sync tab |
| EXACOMP-895 | Fixed button positioning in the Errors section |
| EXACOMP-886 | Depending on the error type, the Resolve and retry button could be named as Dismiss |
| EXACOMP-882 | Rules is now the default tab in the Edit connection screen |
| EXACOMP-878 | Added a filter by issues in the Errors tab |
| EXACOMP-853 | Added a progress indicator when you download a support.zip file |
| EXACOMP-844 | Added various filters for the Sync Queue:<br><br>• by connection<br>• by local issue key<br>• by remote issue key |
| EXACOMP-836 | Added an introduction message when there are no triggers created |
