How to Deploy the Exalate Bridge App
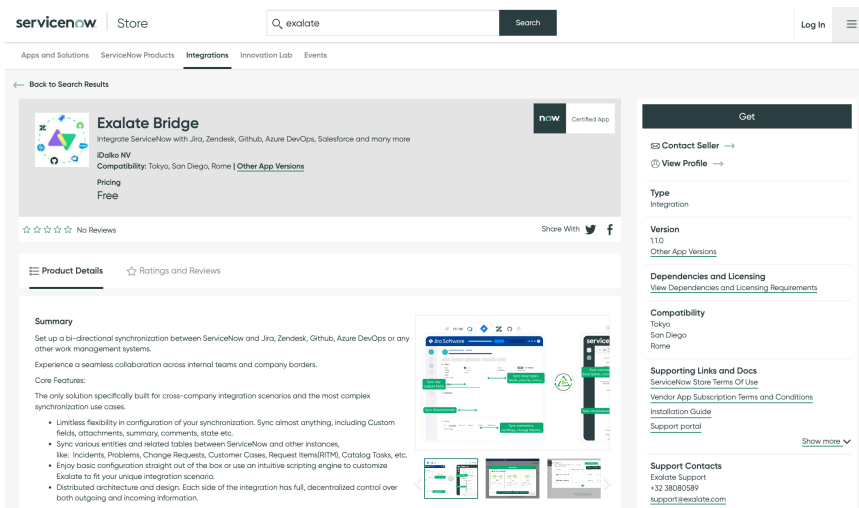

Last Modified on 08/17/2023 5:34 am EDT

Deploy the Exalate Bridge App

Note: Dev environments cannot install applications from the ServiceNow store - follow the next steps to deploy the Exalate bridge using an XML-based update set Set up Exalate in your ServiceNow instance using an update set
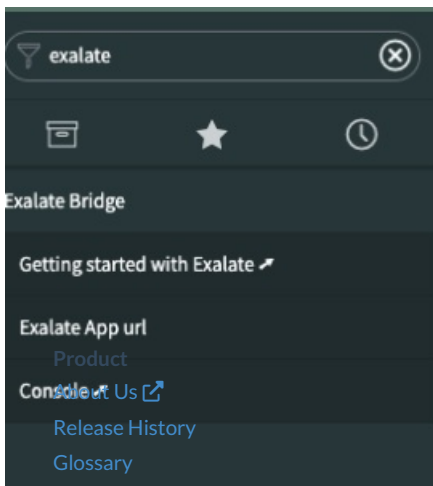

What is the Bridge App?

The Exalate Bridge App is a ServiceNow-certified app that allows connecting your ServiceNow environment with the Exalate app.

This bridge app is meant to simplify access to the Exalate for ServiceNow service. When deployed it will

- Create 2 Roles
    - x_idnv_exa_bridge.admin
    - x_idnv_exa_bridge.integration
- Creates 3 ACL on the sys_journal_field table
    - read, create, write
- Add a link to the console in the exalate bridge application menu
