

unExalateAfterProcessing

Last Modified on 04/15/2024 5:16 am EDT

Signature

Helper	syncHelper
Signature	<code>unExalateAfterProcessing()</code>
Description	Creates an Unexalate event to stop the synchronization of an issue once it's synchronized.
Introduced in	5.0.35

Example use

Note: Use this helper method to stop the synchronization of an issue once it's synchronized to the destination side.

Stop the issue synchronization if the issue status is Closed.

Incoming sync (destination side)

```
if (issue.status.name == "Closed") {  
    syncHelper.unExalateAfterProcessing()  
}
```
