In this release

Improvements

- XLT-3009 Redirect to the console if EXALATE_MAPPER_BASE_URL is the same as the node url.
- XLT-3017 As a user, I want to be able to set the environment variable for the HTTP header when setting up a node so that I can add additional information when communicating between the client and server side.
- XLT-3034 As a user, I want to be able to set HTTP headers in sync processors on requests from Exalate to pass additional information when communicating between the client and server side.
- XLT-3083 As a user I want the required fields in the Login page to be marked with an asterisk so that I could clearly see what fields of the login form should be mandatory completed.

Bug fixes

- XLT-1282 Some data fields in replica.csv are shifted.
- XLT-3024 User with appropriate rights are not authorized to access Exalate.
