Jira Cloud - Version 5.14.1

Last Modified on 07/16/2024 10:35 am EDT

Released for Jira Cloud on July 17, 2024

In this release, we've resolved the following issues:

- XLT-5286 - Notify users about the upcoming node archival.

- XLT-4837 - [Pentest - Medium] Reflected Cross-Site Scripting (XSS).

- XLT-5285 - Email notifications backoff env variable.

- XLT-5510 - httpClient does not infer the contentType for put and post calls.

- XLT-5479 - Generate an informative and well-structured page whenever the embedded node has been archived.
