

SyncRoom Early Access - Version 2.5.0

Last Modified on 11/17/2025 4:14 am EST

Released for SyncRoom on November 10, 2025

In this release, we're introducing streamlined connection creation through a new flow that enables automated system registration and simplified connection setup for multiple platforms. **Users can now create connections faster with automated registration for Azure DevOps Cloud, ServiceNow, Freshdesk, and Freshservice, while maintaining support for imported nodes across all Exalate platforms.**

New Features

- SYN-203 - [Automated System Registration & Connection Creation](#)
Create connections seamlessly with automated system registration for Azure DevOps Cloud, ServiceNow, Freshdesk, and Freshservice - no manual node setup required.
- SYN-316 - Generating Default Sync Rules for Newly Created Connections
Default synchronization rules are now automatically generated when creating new connections.
- SYN-393 - Enhanced Connection Creation with Imported Nodes
Expand your integration capabilities with support for creating new connections using imported nodes from any supported Exalate cloud platform:
 - Jira Cloud
 - GitHub
 - Zendesk
 - Salesforce
 - All other Exalate-supported cloud systems
- SYN-206 - [User Registration & Self-Service](#)
New users can now register for SyncRoom accounts independently, streamlining team onboarding and network expansion.

Improvements

- SYN-327 - Redesigned Item Sync Monitor with enhanced manual synchronization interface.
- SYN-237 - Enhanced troubleshooting view with selective error management.
