isIssueEditable

Last Modified on 01/30/2026 11:14 am EST

Signature

Helper	nodeHelper
Signature	isIssueEditable(Issue issue)
Description	Returns true if the issue can be modified.
Introduced in	1.1.0

Example use

```
// don't do anything if the issue is marked as non editable

if (! nodeHelper.isIssueEditable(issue)) {
  return
}
```

Comments

- There are various reasons why an issue is marked as not editable. Typically, one doesn't want to change a closed issue.

  The workflow properties allow you to change this edit permission.
