Destination Side

Create/Change Processor

```
def localUserForRemoteAssignee = nodeHelper.getUser(replica.assignee.key)
if (localUserForRemoteAssignee == null) {
  // create the user if s/he doesn't exist
  localUserForRemoteAssignee = nodeHelper.createUser(replica.assignee.displayName,
    "changeme",
    replica.assignee.email,
    replica.assignee.displayName)
}
//add the user as a request participant
issue.customFields."Request participants".value += localUserForRemoteAssignee
```
