

findWithRole

Last Modified on 01/30/2026 11:18 am EST

Attention!

This method does not take into account a project for the currently synchronized issue. It collects all of the users with a specified role in each project without eliminating duplicates.

Signature

Helper	userHelper
Signature	<code>findWithRole(String role)</code>
Description	Returns a list of users with the specified role in any of the existing projects.
Introduced in	0.12.0

Example use

```
def users = userHelper.findWithRole("developers")
```
