# Jira Cloud - Version 4.1.2-AC (internal: 5.0.49)

Last Modified on 01/15/2026 1:57 pm EST

**Released for** JIRA CLOUD on **Aug 04, 2020**

In this release, we've added user, option, and text field mappings. We've also improved the evaluation license: now you can synchronize up to 65 new issues per the evaluation period.

## In this release

- EXAEDIT-901 - Added support for user, option and test fields mapping
- EXE-779 - Improved evaluation license: you can synchronize up to 65 new issues per the evaluation period
