Jira Cloud - Version 5.22.0

Last Modified on 01/15/2026 1:12 pm EST

Released for Jira Cloud on February 19th, 2025

In this release, we've resolved the following issues and implemented several major security improvements:

Bug fixes

- XLT-6380 - Maintaining a uniform display of the main icons;
- XLT-6347 - EULA page links replacement;
- XLT-6212 - Enhanced trigger windowing for Exalate on Jira Cloud, improving efficiency and control over synchronization triggers.

Improvements

- XLT-6225 - Enhanced AI Assist with the ability to interrupt prompt processing for better responsiveness and control;
- XLT-1216 - Enhanced security for connections and synchronizations.
