Released for Jira Cloud on July 28th, 2025

[?](#) Access Trend Dashboard from the Exalate Console

Exalate administrators can now securely access a dedicated trend dashboard directly from the UI. This dashboard provides insights into synchronization activity over time, helping admins monitor and understand their node's performance. The link opens in a new tab and is available only to authorized users. More details [here](#).

In this release, we've resolved the following issues and implemented improvements:

Bug fixes

- XLT-6842 - **Issue type isn't synced between two Jira Cloud's;**
- XLT-4527 - **Notification triggered when tracker license usage reaches 80% with Atlassian license.**
