Jira on-premise - Version 5.22.0

Released for Jira on-premise on February 14th, 2025

Compatibility with Jira On-Premise 10.4

We are pleased to confirm that Exalate version 5.22 has been successfully tested for compatibility with Jira On-Premise 10.4. Our validation process covered API compatibility, performance benchmarking, security compliance, and functional testing to ensure seamless synchronization.

With all compatibility tests completed, Exalate 5.22 is fully compatible with Jira On-Premise 10.4, allowing users to upgrade without disruptions. No additional configuration or action is required for existing Exalate users.

Additionally, in this release, we've implemented a major security improvement:

Improvements

- XLT-1456 - Enhanced security for connections and synchronizations. (Jira 9/10);
- XLT-6184 - Remove "Advanced" section with "Show remote link" toggle from Script connection in Exalate Console.
