Exalate AI Assist: Security and Compliance

Last Modified on 01/15/2026 9:06 am EST

Security and Privacy Measures

To protect your data and ensure compliance with relevant regulations, we have implemented several security measures:

- **Data Encryption**: All data processed by the AI Assist is encrypted in transit and at rest.
- **Access Controls**: Access to the AI Assist and related logs is restricted to authorized personnel only.
- **Audit Logs**: Detailed logs of all interactions with the AI Assist are maintained to ensure transparency and accountability.
- **Regular Audits**: Our systems are regularly audited for security compliance and to identify potential vulnerabilities.

Regulatory Compliance

Using the Exalate AI Assist involves adhering to certain regulations to ensure compliance and data security. Below are the key regulations that govern the use of AI in our product:

- Exalate End User License Agreement (EULA):

  - Exalate EULA governs the use of Exalate services and outlines the terms and conditions of using our products, including AI features.

- OpenAI Usage Policies:

  - As Exalate AI Assist leverages OpenAI technology, we comply with OpenAI's usage policies and Terms of Use. These policies ensure the ethical and responsible use of AI technology.

- Log Storage Transparency:

  - We maintain transparency regarding the storage location of logs. The storage location complies with existing regulations, such as the General Data Protection Regulation (GDPR), to ensure data sovereignty and compliance.
