

New vs Classic FAQ

Last Modified on 02/03/2026 10:30 am EST

This section answers common questions about the **New Exalate Experience** and how it compares to **Exalate Classic**. It explains what the new experience introduces, how it differs from Classic, and whether switching is required.

You'll find guidance on **migration**, **running both experiences in parallel**, **script compatibility**, and whether existing integrations continue working during the transition. This section also helps you identify which experience you're currently using and clarifies Classic's ongoing support status.
