External scripts with a bit of TLC in Jira Cloud

Last Modified on 02/17/2026 1:09 pm EST

Introduction

This documentation site provides a lot of example scripts containing approaches on how to implement various use cases. Many of these scripts are meant to **illustrate** how challenges can be resolved and are not meant as the solution for the issue you try to resolve.

Examples

Status.groovy	Used to synchronize Statuses
Epic.groovy	Used to synchronize Epics on Jira Server/ Jira Data Center
TempoWorkLogSync	Used to synchronize Tempo Worklogs.
